operating as a symbol of what Palestinian society can become if it focuses on advancement rather than conflict with Israel.

Legally, Rawabi can only be connected to the Israeli water network by a decision of the joint Israeli-Palestinian Water Committee (JWC), but this committee has not met in over five years.

But while the first apartments are ready to be occupied, they remain empty. Israel's Water Authority has thus far refused to connect Rawabi to the Israeli water network.

With the help of IDF Maj.-Gen. Yoav Mordechai, military coordinator for the Palestinian-controlled territories, Yaalon is looking to bypass the JWC, and has ordered that Rawabi and several Jewish communities in the area be connected to the water network immediately.

But Yaalon has found opposition in fellow Likud politician Infrastructure Minister Silvan Shalom, who insists on formal approval for the project by the JWC. It is the Palestinian side that since 2010 has refused to appear at the JWC meetings, and Shalom said that Rawabi could instantly receive approval for water if only the Palestinian Authority would change its attitude and again start working together with Israel.

The entire 7 billion world is watching Rawabi. The entire world see the true evil sadistic nature of jews. Jews act like you own the entire world because you own America. Jews use to own Europe. Europe is now starting to see the true evil nature of jews so Jews are losing control of Europe. Americans will soon start to see the evil Nazi sadistic nature of Jews. When the world rises up against evil Jew control of the world like they did in WW2 and Israel is no longer protected by Europe and America, you jews will be given the same fate you have given the Palestinians. jews could have accepted the arab offer to live peacefully with the muslim world but you evil jews chose evil and oppression of palestinians.

"Rawabi could instantly receive approval for water if only the Palestinian Authority would change its attitude and again start working together with Israel."

The PA must be willing to work with Israel but they are not willing, so who is to blame. PA cannot work with anyone. They won't work with Israel. Why didn't you condemn PA, instead you show such hatred for Israel.

Those who cursed Israel will be cursed. Those who bless Israel will be blessed.
